Support the “Trade and Environment Enforcement Act (Green 301) of 2013”

December 12, 2013

On behalf of our millions of members and supporters, our organizations urge Members of Congress to support the “Trade and Environment Enforcement Act (Green 301) of 2013.”

This important bill amends the Trade Act of 1974 and requires the U.S. Trade Representative to identify and address irresponsible foreign country trade practices that harm the environment, deplete the world’s natural resources, and undermine legal natural resource trade.

Green 301 is an important step in creating a more sustainable model of international trade that fosters economic growth and development while benefiting communities and the environment.
